The amendment received 16 November 2005 has been made of record. Claims 16-22, 24-27 and 30-45 are pending.

The rejection under 35 USC 112 contained in the previous office action is withdrawn in view of applicants' amendment.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-22, 24-27 and 30-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of the independent claims recites a combination of hard particles and braze alloy or braze particles. Other claims such as claim 20 recite that the hard particles are braze alloy particles.

The examiner is unable to determine the difference between hard particles and braze alloy, if any, and when the hard particles may or may not be equivalent to the braze alloy.

Appropriate clarification is required.
